

RS232/RS485 to Ethernet Converter

Specifications

- | **Communication Port** : RS-485 and RS-232
- | **Network Interface** : Ethernet (TCP/IP)
- | **Operating Modes** : TCP to RTU mode, Transparent Mode, TCP Client Mode
- | **Configuration** : Web Browser
- | **Input Voltage** : 5V-24V DC
- | **Form Factor** : Compact & lightweight for panel and DIN rail mounting
- | **Operating temperature** : -40°C ~ 85°C
- | **Humidity range** : 5% ~ 95% relative humidity

Use case

Industrial Automation

BMS Monitoring

Logistics

Smart Cities
