

# Your Trusted IoT Development Partner

**IOT**

## HARDWARE PROTOTYPING & DESIGNING

- Capturing user requirements
- Scope analysis and hardware finalization with benchmarking and testing
- Individual enclosure design

## EMBEDDED SOFTWARE DEVELOPMENT

- Microcontroller and DSP programming
- Support and development for AOSP
- UAVs, smart homes, and motor control applications

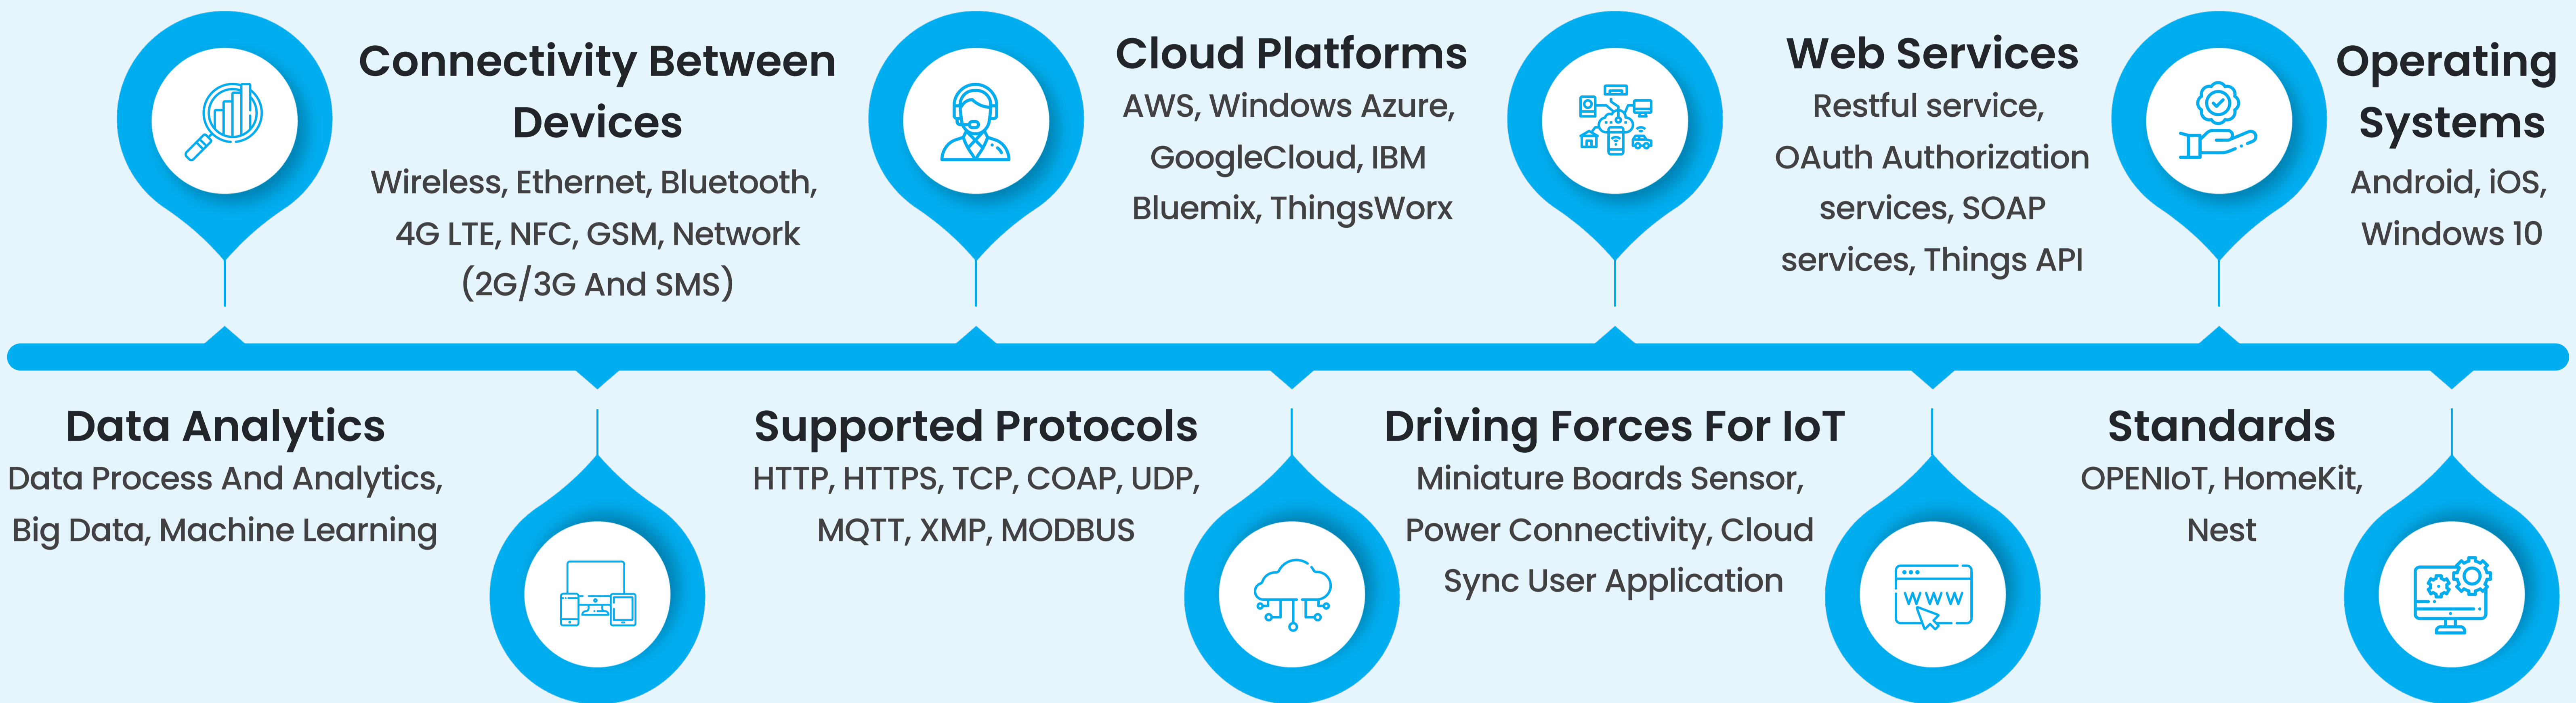

## REAL-TIME TRACKING AND ANALYTICS

- Webapp-based HMIs
- Effective Dashboard for device management
- Predictive and advanced maintenance systems
- Support for AWS IoT Core, Azure IoT Hub & many other IoT platforms

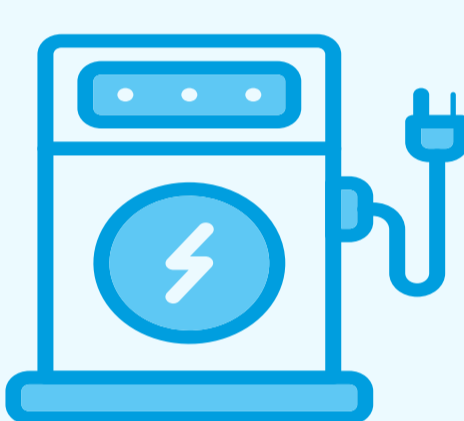

# BUILDING SCALABLE IoT PLATFORMS & SMART CONNECTED DEVICES

HashStudioz is a global leader in IoT app development company having expertise in hardware, firmware, mobility & cloud. HashStudioz Technologies Inc delivers custom solutions empowering clients with sophisticated IoT products.

# Industry-Leading Our IoT Development Stack Strengthening Solutions Provider

## Executed Projects

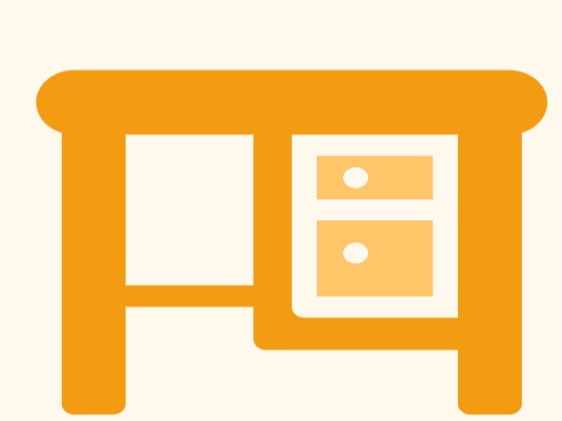

**EV Health Monitoring System**

**Swachh ATM**

**Smart Door Lock**

**Smart Table**

## Industries We Serve

Automotive

Agriculture

Healthcare

Manufacturing

Smart City

Retail
